Network Change:

Access Services

Description of Type of Changes Planned:

SBC plans to migrate all existing circuits and services from its existing Central Office, CRNDCA11, to a new Central Office, CRNDCA02, which is being built on adjacent property. This migration is triggered by the floor space exhaust of the existing building and municipal restrictions that preclude SBC from expanding the building. A development agreement entered into by SBC and the City of Coronado, Ca. requires the construction of a new Central Office building and the demolition of the existing CRNDCA11 Central Office by December 31, 2008. The addresses of both buildings follows:

From: CRNDCA11, 778 Orange Ave., Coronado, Ca. 92118
To: CRNDCA02, 756 Orange Ave., Coronado, Ca. 92118

The terms of the development agreement dictate the following timeline:

Overall Project Timeline:

SBC completes new CRNDCA02 building.....**Jan 2005**

SBC installs ironwork, cable rack, lights, new Main Distributing Frame, new Fiber Distributing Frame, new Power Equipment, Transport equipment, Collocation cages, and Outside Plant equipment in CRNDCA02 building.....**Jan – Sept 2005**

CLECs install new physical collocation equipment in CRNDCA02.....**July – Nov 2005**

SBC transitions copper based services, including DSL and HiCaps to new Main Distributing Frame in CRNDCA02.....**Jan 2006 – June 2007**

SBC selects replacement for existing DMS-100 Switch.....**Feb 2006**

SBC installs new replacement switch in CRNDCA02.....**June 2007 – Feb 2008**

SBC dial with dials CRNDCA11 to replacement switch in CRNDCA02.....**Mar 28, 2008**

SBC demolishes existing CRNDCA11 building.....**Nov 2008**

Description of Reasonably Foreseeable Impact of the Planned Changes:

The migration plan developed by SBC is designed to have minimal impact on all customers served by CRNDCA11.

Part of the migration plan calls for the installation and testing of all physical collocation equipment in the new CRNDCA02 building no later than November 30, 2005. The circuit migration is scheduled to begin in January 2006 and failure to meet this date may cause service disruption for those customers served by CLECs. It is also necessary that all existing physical collocation equipment in CRNDCA11 continue to work until all circuits have been migrated to CRNDCA02.

Location of Change:

CLLI Code/Statewide	City	State	Implementation Date
CRNDCA11	Coronado	CA	7/5/2004
